

Kodiak Viewer/ES File Explorer Instructions

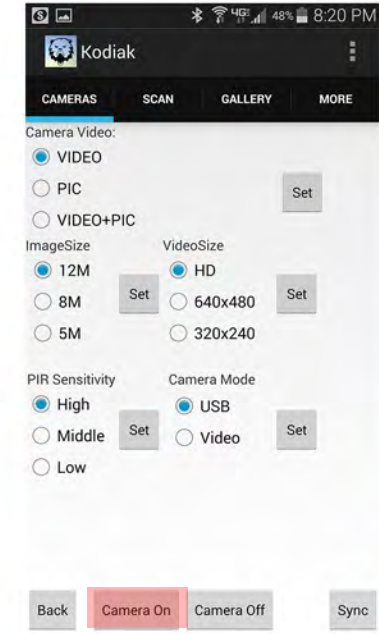

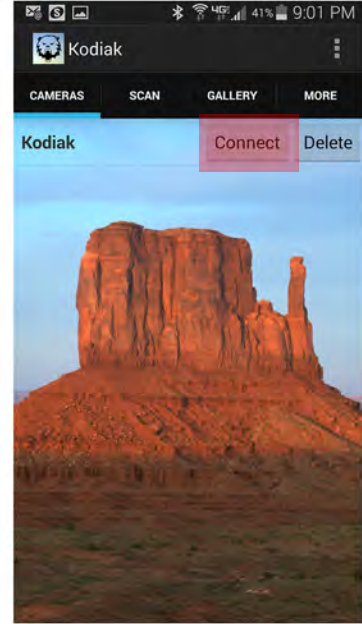

Download the "Kodiak Viewer" app from the Google Play Store

Download the free "ES File Explorer" app from the Google Play Store

Open the "Kodiak Viewer" and navigate to the scan screen

Select "Kodiak" from the list (may take a moment to update on camera screen)

Navigate to the cameras screen and press connect

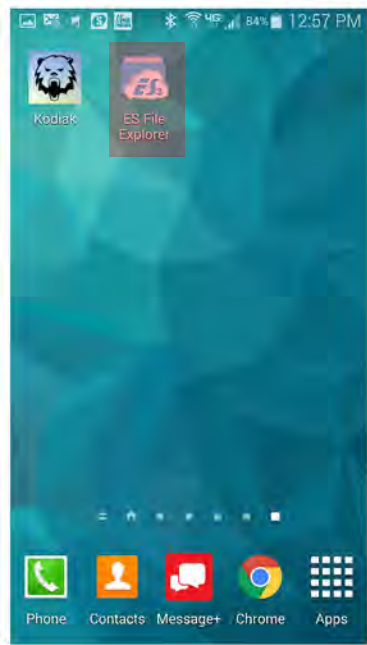

Press "Camera On", then wait for the red light on the camera to turn on

Leave the app open and go to your phone's settings

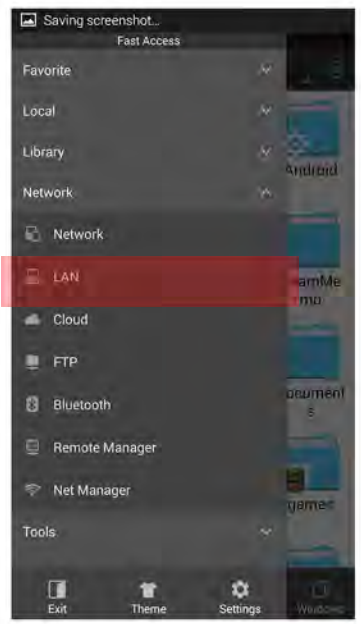

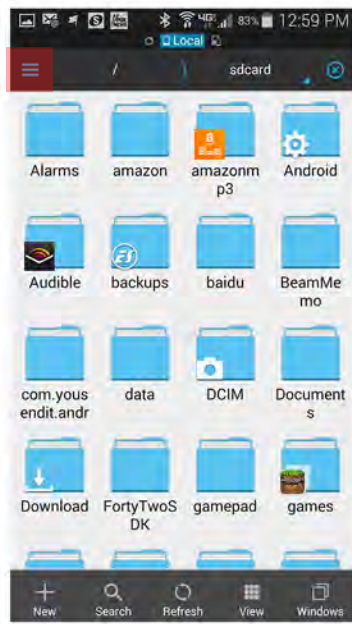

Click on Wi-Fi, then connect to Kodiak (may take a minute to show up) **Password: 12345678**

Continue to page 2 for ES File Explorer setup instructions

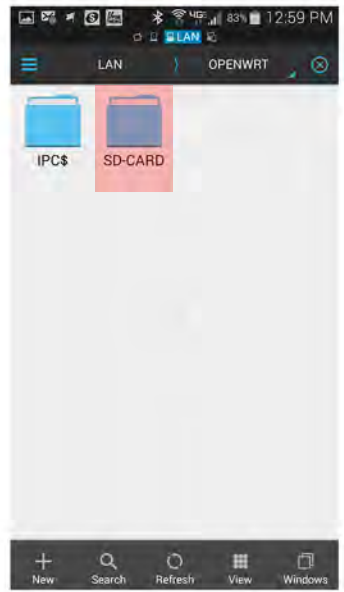

Make sure to leave "Kodiak Viewer" running in the background

Open "ES File Explorer"

Click on the navigation bar in top left corner

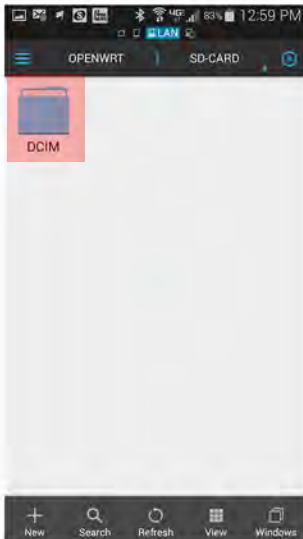

Click "LAN"

Press "Scan"

Press "OPENWRT"

Press "SD-CARD"

Press "DCIM"

Press "100MEDIA"

Click on a thumbnail/image icon to view it. Hold down to select multiple images for saving and/or deleting

Close both apps when finished
